Individual and Group Intervention Course Description

Designed to present the core elements of a comprehensive, systematic and multi-component crisis intervention curriculum, the Individual and Group Crisis Intervention courses will prepare participants to understand a wide range of crisis intervention services. Fundamentals of Critical Incident Stress Management (CISM) will be outlined and participants will leave with the knowledge and tools to provide several individual and group crisis interventions, specifically demobilizations, defusings and the Critical Incident Stress Debriefing (CISD). The need for appropriate follow-up services and referrals when necessary will also be discussed.

Program Highlights

- Relevant research findings
- Incident assessment
- “Resistance, resilience, recovery” continuum
- Individual and large group crisis interventions
- Reducing risks
- Relevant recommendations for practice
- Strategic intervention planning
- Small group crisis interventions
- Adverse outcome associated with crisis intervention
- Critical Incident Stress Debriefing (CISD)
